

Installation instruction

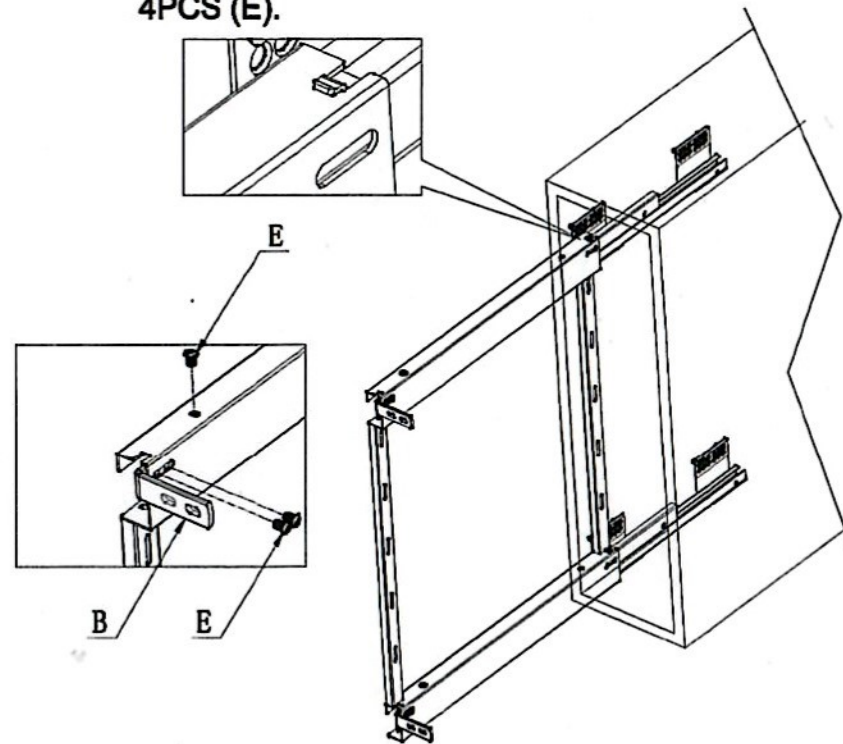

Cabinet width	Product size
200mm	155*470*590
250mm	205*470*590
300mm	255*470*590

NO.	Description	Photo	Qty
A	Slide		1 SET
B	fixing part		2 pcs
C	fixing part for door		2 pcs
D	M6*10 screw		4 pcs
E	M5*8 screw		6 pcs
F	ST3.5*16 screw		16 pcs

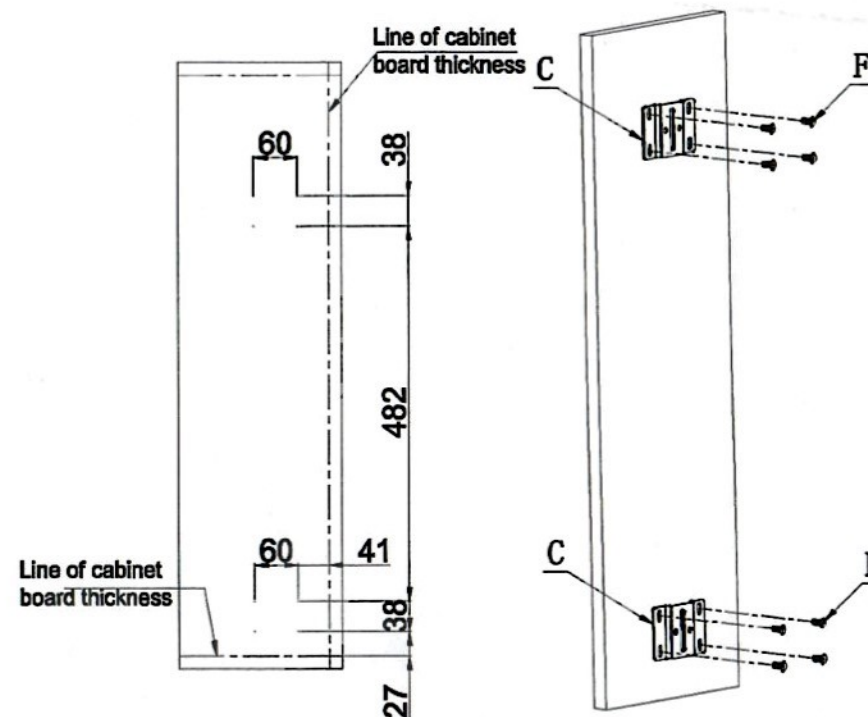

- 1** Drill 8 pcs $\varnothing 2.5\text{mm}$ hole on the left panel of cabinet per the below picture shows. Install the slide (A) onto the cabinet and then fix it with 8pcs (F) screws.

- 2** Install the frame onto (A) and secure it with 2PCS (E). Then install B onto the frame and secure it with 4PCS (E).

- 3** Drill 8 small holes with a diameter of 2.5mm and a depth of 10mm on the door panel, then fix (C) on the door panel using 8PCS (F).

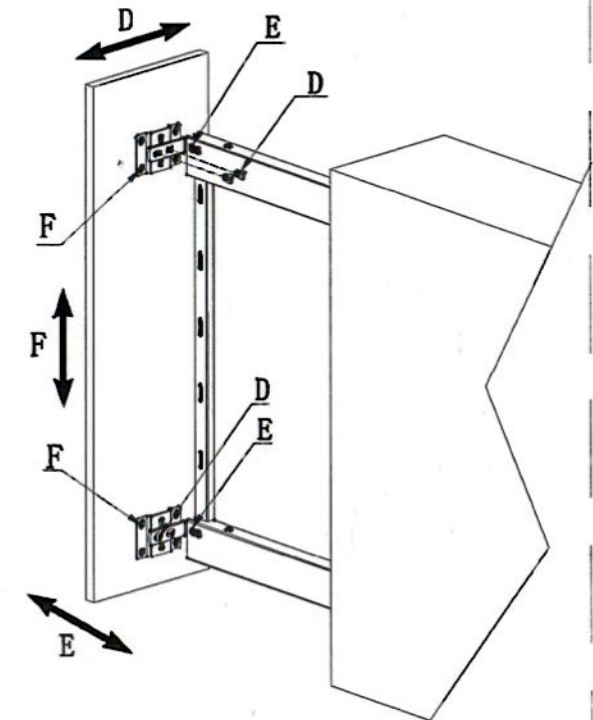

- 4** Install 4PCS (D) to secure the door panel, then make adjustments according to the actual situation. This ensures the installation is firm while allowing for fine-tuning as needed.

1: Screw (D) is used to adjust the left and right movement of the door panel.

2: Screw (E) is used to adjust the forward and backward movement of the door panel.

3: Screw (F) is used to adjust the up and down movement of the door panel.

- 5** Install the basket to the frame.
